Portfolio

Highly skilled software engineer specializing in JavaScript, the MERN stack, Angular, and AWS cloud computing. Proficient in developing efficient, scalable, and secure RESTful APIs and crafting responsive, maintainable user interfaces. With strong expertise in designing and optimizing scalable MongoDB databases, ensuring data integrity and performance.

EXPERIENCE

Training Program in Full-Stack Web Development — *CareerFoundry*

February 2024 - February 2025

- Gained proficiency in HTML, CSS, JavaScript (ES6+), React.js, Angular, Node.js, Express, MongoDB SQL, and AWS cloud computing.
- Built and deployed applications using modern development frameworks and best practices.
- Developed expertise in asynchronous programming, performance optimization, and database management.

General Manager - *Akrogiali*

April 2010 - November 2023

- Successfully ran a hotel-restaurant complex.
- Managed a team of 10, fostering a strong work ethic and maintaining high-quality workplace relationships.

PROJECTS

Modern Online Shop | Full-Stack application | ReactJS, NodeJs

Technologies — *React, Typescript, context API, Node.js, MongoDB*

Modern Online Shop Deployed

Full-Stack Movie App | Server-Side, React & Angular UIs .

Technologies — *Node.js, React.js, Angular, MongoDB*

myFlix React UI deployed

myFlix Angular UI deployed

React Event App | TDD, Google Calendar API, PWA, AWS Lambda.

Technologies — *React.js, Puppeteer, Cucumber, AWS Lambda*

Meet App deployed

SKILLS

html and css

Javascript, Node.js, React.js, Angular

PostgreSQL and MongoDB

AWS cloud

EDUCATION

CareerFoundry, Online — *Full-stack Web Development*

February 2024 - February 2025

Intensive, project-based training program

Warwick University, UK — *Philosophy*

September 2015 - June 2019

Undergraduate degree

LANGUAGES

English – fluent

Greek – native

French – fluent
